PROGRAMMING SKILLS

- **Programming languages:** Java, JavaScript, TypeScript, Swift, Python, Go
- **Technologies:** React, React Native, Flutter, PostgreSQL, Firebase, GraphQL, Node.js., Selenium, Angular

EXPERIENCES

- **Fidelity Investments** Durham, NC
Associate Software Engineer(Web/iOS) Jan 2021 - Present
 - Web: Created Jenkins pipeline to use smart Nx CLI to decreased build and deploy time by 60%
 - Web: Integrated Storybook.js to Angular Nx monorepo and increase component reusability by 48%
 - iOS: Supported iOS squad on implementing omnichannel experience accross Mobile and Web
 - iOS: Integrated Google API for address autocomplete on Fidelity Spire
- **Acme Pro Academy** New York, NY
Lead Technical Instructor(QA) Sep 2020 - Present
 - Led classroom of 15+ students for 2 batches covering topics like Java, SQL, Selenium WD, Jenkins, and more
 - Provided students with well documented assignments and review resources
 - Delivered constructive feedback on assignment and general performance
 - Conducted several group and 1:1 mock interviews to test students' critical thinking
- **Errunds** New York, NY
Software Engineer Intern(Fullstack Web) Jun 2020 - Sep 2020
 - Developed admin site to view vendor and client statistics
 - Integrated MaterialUI and React components to generate dashboards
 - Performed GraphQL queries using Apollo to fetch data from Node.js, GraphQL backend service
 - Implemented Admin authentication flow using Passport Node.js middleware
- **Keko Box** New York, NY
Software Engineer Intern(Fullstack Web) Mar 2020 - Jun 2020
 - Implemented backend endpoints Go to allow vendor to access recently fulfilled/unfulfilled orders
 - Built frontend components using React for above feature which resulted in seed funding of \$30,000
 - Integrated Logout functionality using Auth0 authentication/autherization service
 - Performed Database migration to store vendors' par levels in PostgreSQL

PROJECTS

- **FitPal** [Code — Demo]
Web Application built for tracking and planning your next workout sessions
 - Built using React, MaterialUI, and Firebase for fast and seamless single-page application experience
 - Integrated authentication flow using FirebaseAuth to authenticate and authorize incoming users
 - Integrated Youtube API to search fitness related videos based on user input and render on the page
- **Tracked** [Code — Demo]
Mobile App(Android/iOS) to track Department of Education assets
 - Built using Flutter SDK and Firebase to achieve cross platform compatibility as well as fast user authentication and data retrieval
 - Developed and designed functionality for user to add, delete, update, and view assets based on their school
 - Designed and managed Firebase database collections and relations

EDUCATION

- **City University of New York - Brooklyn College** Brooklyn, NY
Bachelor of Science in Computer Science Dec 2020
